Professional Summary

Upcoming B.Tech graduate in Computer Science and Engineering (Data Science) with a strong foundation in software engineering, programming, and data analysis. Quick learner with the ability to adapt to new technologies and work effectively in both team-based and self-directed environments.

Technical Skills

Programming Languages: Python
Web Technologies: HTML, CSS, JavaScript
Databases: SQL, MySQL
Data Analysis Tools: Microsoft Excel
Core Concept: OOP
Tools: VS code, Pycharm
Frameworks: Django, React.js

Education

St. Johns College of Engineering and Technology B.Tech in Computer Science and Engineering (Data Science)	2022 – 2026 CGPA: 7.65
Sri Balaji Junior College Mathematics, Physics, Chemistry	2020 – 2022 Percentage: 63.4

Academic Projects

- **AI-Based Code Quality Checker and Analyzer**
Developed an AI-assisted system to analyze source code and evaluate quality metrics such as readability, maintainability, and error patterns.
 - Implemented static code analysis using Python to detect syntax and logical errors.
 - Generated automated suggestions to improve coding standards and performance.
 - Identified inefficient and redundant code to enhance overall code reliability.
- **Data Analysis Mini Projects**
Performed data analysis on multiple datasets to identify patterns, trends, and insights.
 - Analyzed structured datasets using Microsoft Excel.
 - Created visualizations including bar charts, line charts, and pie charts.
 - Derived meaningful insights to support data-driven decision making.

Certifications

- Full Stack Python Developer - Pentagon Space
- Python Certificate - Code Alpha

Soft Skills

- Problem-solving and analytical thinking
- Quick learning ability
- Team collaboration and communication
